

"The world is preparing for a big change. Will you help?"
Sri Aurobindo

TRANSFORMATION

At the *Agape University of Transformational Studies and Leadership*, our classes are designed, not merely to inform, but to **transform** lives. As Spirit-beings, something within each of us yearns for a greater expression. It is an inner call that only we, individually, can hear. It is a call of remembrance and a soul-longing for that which is true and unalterable to come forth as a living reality-- to come forth into greater expression. It is the Soul call to live life beyond a life of outer activities, plans, to-do lists, traffic, obligations, and responsibilities, etc. We believe that true **transformation** starts with the awareness of a deep desire or intention to grow, recognition that there is more to life than our professions, jobs, shopping, surface activities, sports, accumulating wealth, and observing the seasons come and go.

Classes are designed to provide the student with life-altering, transforming experiences. While new information is part of the curriculum for each class; our goal is not to merely acquire information. New or additional information will be no more useful than if it were never received, if it is not used. If it does not lead to, or become a catalyst for, a transformed life, the information just sits in a memory somewhere.

Thus, classes at Agape University will look different from most academic institutions. The curriculum will allow you to reach into your own expanded awareness and consciousness. You will not rely solely on your reasoning intellect, but you will engage your many other intelligence capacities—musical-rhythmic, intuitive, visual, spatial, inter-personal, kinesthetic, verbal, intrapersonal, etc. You will participate in **transformational** exercises and processes that take you beyond mere regurgitation of principles, laws and the world of cause and effect. You will be engaged in processes that assist you in discovering your inner world reality where you realize your Oneness with God. Bridges of separation and duality will be dissolved and let go. You will not have "homework", but rather growth-work that will provoke deep reflection.

The classroom will become a means by which your consciousness is catapulted into its own evolution; a place where you begin to cultivate a greater awareness of Self, of the Changeless Reality. The course content is designed for you to become more keenly self-aware and self-observant. This awareness is the first step towards a transformed life. Choice to participate fully is the second step; and open-ness to change, to new ideas is the third step. If I had to say what the fourth step would be, I'd say the willingness to go for it!

Classes assist students in understanding their Divine Appointment (Purpose) here on earth, their mystical connection to, and an integral part of, the larger field of cosmic and human evolution. Your **transformation** as a student can only come about by your willingness and receptivity to yield to the Divine Presence that created the class in which you now sit.

Namaste Reverend Cheryl J. Ward
Dean, Agape University of Transformational Studies and Leadership
